

REGULATORY AFFAIRS TECHNOLOGIST

Innovation Center
Full Time | Permanent

YOU'LL MAKE CONTRIBUTIONS THAT MATTER BY...

- Ensuring finished product specifications are completed accurately, meeting due diligence requirements and in compliance with legal requirements.
- Approving the finished product label artwork against agreed pack copy, ensuring all legal labelling requirements are met.
- Managing and developing the Due Diligence system within Q-Pulse as part of the R&D process and support relevant teams to use it effectively.
- Managing the Technical Documents e-mail inbox and respond to technical queries and documentation requests.

YOU'RE BEST SUITED FOR THE ROLE IF YOU ARE...

- Able to demonstrate at least 2 years' experience in a similar role in the food industry.
- A Graduate (Food Technology, Science or Mathematics based) or have a minimum of 2 'A' Levels plus GCSEs in English and Mathematics at grade C or above (or equivalent).
- Able to demonstrate excellent IT skills, including Microsoft Word and Excel with experience in other systems and databases (ideally Q-pulse and Salesforce), and web-based retailer specification systems (such as M&S FIND and Oracle / Micros systems).
- Able to understand and effectively implement food law and labelling requirements into the specification and legal labelling process.
- Able to show excellent organisational, accuracy, attention to detail and analytical thinking skills.
- Excellent in communication and relationship building skills with ability to communicate professionally at all levels both inside and outside the business.
